Mudkip!

The dreaded Emerald Ash Borer

Block 1

The emerald ash borer is known for its quick dispersal and significant impact on the health of Ash Trees all throughout North America. Native to East Asia, this insect's burrowing capabilities make chemical solutions inviable, and the USDA is now researching biocontrol methods in order to curtail the population.

Theorem

Theorem (Mass–energy equivalence)

$$E = mc^2$$

Example (Theorem Slide Code)

```
\begin{frame}  
\frametitle{Theorem}  
\begin{theorem}[Mass--energy equivalence]  
$E = mc^2$  
\end{theorem}  
\end{frame}
```
